ARPIT RAJPUT

Delhi, India | +91 8279437447 | work.arpitrajput@gmail.com | LinkedIn | GitHub

SUMMARY

Full Stack Developer skilled in building scalable web applications with expertise in **Node.js, React.js, Next.js, and Python (FastAPI)**. Experienced in designing **RESTful APIs**, integrating databases (**MongoDB, MySQL**), and deploying cloud-based solutions on **AWS**. Strong foundation in **data structures, system design, and Agile methodologies**, with hands-on experience in SaaS, AI, and fintech products. Passionate about solving complex problems and delivering secure, high-performance applications end-to-end.

TECHNICAL SKILLS

- **Programming Languages**: JavaScript (ES6+), TypeScript, C++, Python, HTML5, CSS3
- **Frontend Technologies**: React.js, Next.js, Tailwind CSS, Responsive Design, Cross-browser Compatibility, UI/UX Principles
- **Backend Technologies**: Node.js, Express.js, Nest.js, FastAPI, RESTful APIs, Microservices, JWT Authentication, GraphQL (basic)
- **Databases**: MongoDB, MySQL, PostgreSQL**,** Database Design, Query Optimization
- **Cloud & DevOps**: AWS (S3, SES), Docker, CI/CD, GitHub Actions, Kubernetes, Helm, Version Control Systems,
- **AI/ML Tools**: ChatGPT API, GitHub Copilot, Hugging Face, Prompt Engineering, LLM Integration
- **Development Tools**: VS Code, Postman, Auth0, Firebase Cloud Messaging, Shell Scripting, Git
- **Methodologies**: Agile Development, Scrum, Test-Driven Development, Code Review, Performance Optimization, Software Design
- **Soft Skills**: Team Leadership, Problem-Solving, Technical Communication, Project Management, Mentoring, Drives Results • **Interests**: Open-Source Contributions, AI/ML Research, Technical Writing, Community Building

PROFESSIONAL EXPERIENCE

1Fi **Jan 2026 - Present**

Software Engineer Intern *Gurugram, India*

- Built backend services for a **Loan Management System** using **NestJS**, supporting loan creation, customer management, and loan-security assignment workflows for NBFC-backed lending operations.
- Developed **REST APIs** for loan, customer, merchant, and admin modules with **PostgreSQL** data persistence and structured request validation.
- Created a **Next.js admin portal** for internal teams to manage loans, merchants, customers, and operational workflows through a centralized dashboard.
- Implemented secure **authentication and authorization** using **Better Auth** across protected APIs and admin-facing frontend routes.
- Containerized services with **Docker** and deployed applications on **Kubernetes** using Deployments, Services, Ingress, ConfigMaps, and Secrets.
- Automated build, test, and deployment workflows using **GitHub Actions CI/CD**, and wrote tests with **Jest**, **Vitest**, and Testing Library.

LabBuddy **Apr 2025 - Oct 2025**

Full Stack Developer *Delhi, India*

- Developed secure **RESTful APIs** using Python (FastAPI) for patient and lab management workflows.
- Implemented **JWT-based authentication and authorization**, reducing security vulnerabilities by 95%.
- Integrated **AWS S3 for storage** and **AWS SES for notifications**, achieving 99.9% uptime.
- Built asynchronous background tasks, improving system responsiveness and user experience by 60%
- Designed and deployed **Firebase Cloud Messaging** for real-time push notifications with a 98% delivery rate.
- Collaborated with 8-member agile team in daily standups, sprint planning, and reviews.

Plunge **Dec 2024 - Apr 2025**

Full Stack Developer *Delhi, India*

- Architected and developed social networking features using React Native and Node.js, enhancing user experience and system scalability
- Optimized API response times, reducing backend latency by 40% and improving engagement by 25%.

- Implemented MongoDB schemas for efficient data retrieval, improving database query performance and application responsiveness
- Delivered 15+ features in agile sprints, collaborating with PMs and designers.
- Conducted code reviews and mentored juniors, raising team coding standards.

PROJECTS

Plunge - Social Networking Platform | plunge.one
- Built responsive web application serving 5,000+ active users with real-time messaging and social features
- Implemented dynamic UI components following accessibility standards (WCAG 2.1 AA compliance)
- Achieved 95+ Lighthouse performance scores and reduced UI load time by 30%
- Integrated advanced search functionality and user recommendation algorithms

CraviiFy - Full Stack Food Delivery Application | https://mern-food-ordering-app-frontend-8971.onrender.com
- Developed secure food ordering platform with multi-vendor support and real-time order tracking
- Implemented Auth0 authentication system supporting 1,000+ registered users
- Built RESTful API architecture with comprehensive order management system, achieving 99.9% uptime
- Optimized database queries and implemented caching strategies, reducing response times by 45%

CodeZen - Hackathon Event Management Platform | https://codezen-eight.vercel.app/
- Developed high-performance event website handling 1,000+ concurrent users with zero downtime
- Achieved 95+ Lighthouse scores across all performance metrics (Performance, Accessibility, SEO)
- Implemented server-side rendering and image optimization, reducing page load times by 40%
- Integrated payment gateway and registration system, processing 500+ participant registrations

EDUCATION

Guru Gobind Singh Indraprastha University **2022-2026**
Bachelor of Technology, Computer Science and Engineering *Delhi,India*
- **GPA:** 8.8
- **Coursework:** Data Structures and Algorithms, Software Engineering, Database Management Systems, Web Development, Computer Networks, Operating system

ADDITIONAL INFORMATION

- English (Fluent)
- Hindi (Native)

ACHIEVEMENTS

- Led development team of **50+ members** in a university hackathon.
- Mentored **100+ junior developers** in university coding classes.
- **Best Coordinator Award: Awarded Best Coordinator** by Guru Gobind Singh Indraprastha University for leadership & organization.
